WRITING

Hello, dear readers of this text! I am rarely watching films, but one of my favourite is „Interstellar”. It is a sci-fi film, that I saw 1 year ago. As a many another films, it's about space. It shows a story about astronauts command. They have been sent to a dangerous mission - explore a planet near the blackhole. They are have a timer, until the planet will be destroyed by that blackhole. First time everything is seems good. Comand is exploring planet, but one of them is a traitor. Actions are became bad, and after all happend, only 1 man is survived. Planet is almost destroyed. He is trying to fly out, but he can't. After, man went to a blackhole.

I can't recommend this movie because it's one of the best films I've ever seen. Actions aren't too fast and not too slow. His This history is interesting. If you don't really like space theme, or sci-fi I can't recommend it for you. You can be bored. 957
